Ideal and cost effective for copy vending

- Schools ■ Copiers
- Universities ■ Printers
- Companies ■ Fax units
- Copy shops ■ Microform readers

Cartadis TC11N

■ Principle

The **Cartadis TC11N** is a card reader designed for being connected to any make of copiers, printers and microform duplicator-readers. Users in the possession of prepaid cards can make copies up to the limit of the value available on their card.

■ Cards

Cartadis TC11N cards are credit-card sized featuring the high coercitivity magnetic technology.

Two types are available :

- . reloadable cards,
- . disposable cards (not reloadable).

Both cards are supplied blank and need to be recorded before use on the **Cartadis TC11N**.

A reloadable card can be revalued and reused several times while a disposable card can be loaded only once.

A special "administration" card is intended for the person in charge of the copier, it enables to both programm cards and access to the **Cartadis TC11N** functionalities.

■ Applications fields

- Libraries

Libraries often propose self-service copy. The cost of copies for users is provided with a simple and practical way of payment. The **Cartadis** debit cards are ideal. They are first recorded with copies or currency and sold by automatic dispensers or at a counter on the site. The owners of such cards will use freely the copiers or any other unit fitted with **Cartadis TC11N** readers.

- Copy shops

Cartadis debit cards lead to your customers' loyalty by giving a modern appearance to your installation.

- Companies

Cartadis debit cards can be considered as a budget for copies. This budget can be managed the same way you are using for managing your office supplies or other charges.

■ Compatible units
