

Copy management by account cards
and
copy vending by debit cards
with

CARTADIS TC4N

The account card
for managing

The debit card
for vending

- A system that matches your needs.
- Puts you in control of your photocopiers and printers installation.
- The **Cartadis TC4N** magnetic card reader is suitable for any type of copier.

Cartadis TC4N

■ Cards

Cartadis TC4N cards are credit-card sized featuring the high coercivity magnetic technology.

Two types are available:

- reloadable cards,
- disposable cards (not reloadable).

Both cards are supplied blank and need to be recorded before use on the **Cartadis TC4N**. A reloadable card can be revalued and reused several times while a disposable card can be loaded only once.

- Cards recorded with an account number (account card)

These cards must be reloadable and first recorded with an account number, a department and copies number may also be included.

The **Cartadis TC4N** memory contains up to 10 000 accounts and 99 departments that can be read by means of a printer or any type of data collection system at any time.

- Cards recorded with a number of copies (debit card)

These cards can be reloadable or disposable and must be first recorded with a number of copies. As phone cards, they are anonymous and dedicated to prepaid copy-selling.

- The administration card

Intended for the person in charge of the copier, it enables to both programm card and access to the **Cartadis TC4N** functionalities.

■ Applications fields

- Companies

The increasing competition of companies leads to an accurate control of charges. Copy management by an account card is the solution that enables to store, in the **TC4N** memory, the number of copies made by each person, section and department in the company.

- Schools

Needs are often double:

- copy management by account cards for teachers or staff,
- copy vending by debit cards for students.

- Copy shops

- copy vending by debit cards for private people,
- invoicing at the end of month by account cards for companies.

■ Compatible units

Cartadis TC11N, cards dispenser/reloader DRC4, cards dispenser CD20, Cartadis printer, data collection terminal TP2.
